

4scu16ls

Up to 16 SEER,
Two-Stage
Air Conditioners

BUILT TO DELIVER ENHANCED PERFORMANCE AND CONTINUOUS ENERGY EFFICIENCY.

BUILT FOR LIFE. YOURS.

AIREASE PRO
SERIES

AIREASE

Built for life. Yours.

Precise control over
temperatures, humidity
and energy costs.

AIREASE™
PRO
SERIES

Two-stage cooling allows the **4SCU16LS** to adapt its output to match demand, so **your temperature stays exactly where you set it.** Two-stage cooling also helps the **4SCU16LS** save energy, because it can run at a lower, more efficient speed most of the time and ramp up cooling output as needed for the hottest days.

By adjusting its cooling output, the **4SCU16LS** can even **give you greater control over humidity,** to preserve the quality of your air. It's the air conditioner built to offer more. Because **it's built for life. Yours.**

Inside the design of an AirEase 4SCU16LS air conditioner:

MHT™ Technology:

AirEase's proprietary heat transfer system uses a specially designed fan shroud, rifled tubing and lanced coil fins for maximum heat transfer and efficiency.

Sound Reduction:

Inside every 4SCU16LS, you'll find a compressor that's wrapped in a heavy-duty, sound-insulating blanket to reduce operating noise, so you'll enjoy peace and quiet with your comfort.

Two-Stage Scroll Compressor:

Rather than being "all on" or "all off," your air conditioner can adjust its output to a high or low level based on your cooling needs. Its two-stage scroll compressor uses a time-tested design known for its consistent performance and long operating life.

Integrated Compressor Protection:

Built-in high- and low-pressure switches prevent the 4SCU16LS from operating if there is too much or too little refrigerant, increasing reliability and protecting your investment.

Communicating Control Board:

The 4SCU16LS continually monitors internal components to make sure they're delivering optimum performance, helping ensure long life and reliable operation.

Sealed Contactor with Lugs:

Completely covers the contactor, protecting it from debris and insects.

The advanced features of the AirEase 4SCU16LS work together to bring you:

CRAFTSMANSHIP

The 4SCU16LS is a **trusted choice**. Each one is built with the highest-quality components, and **100% run-tested** before it leaves the factory to make sure it meets AirEase's demanding standards.

EFFICIENCY

Designed to deliver energy-saving cooling, the 4SCU16LS combines a two-stage scroll compressor with an efficiency rating of up to 16 SEER* to **help you save hundreds of dollars each year**. (See back cover for an estimate of annual energy savings.)

COMMITMENT

AirEase's dedication to a better product is backed by a 10-Year Limited Warranty on the compressor and a 10-Year Limited Warranty on parts.**

The enhanced performance of the **4SCU16LS** gives you more of what you demand.

ENHANCED PERFORMANCE

The **4SCU16LS**'s two-stage compressor operates at a low, energy-efficient output most of the time, with extra capacity available when needed. So you get precise temperature control, even in extremely hot weather. Two-stage operation also means lower sound levels for a quieter environment.

VARIABLE BLOWER SPEED OPERATION

With its two-stage design, the **4SCU16LS** makes the distinction between mild and extremely hot days, using only the energy necessary to keep you comfortable.

ENERGY EFFICIENCY

The **4SCU16LS** has a SEER rating of 16, helping you save money on energy every month. The Comfort Sync® Control installed with the **4SCU16LS** allows your AirEase dealer to further fine-tune your system for even greater energy savings, while also allowing you to control your system from anywhere via a smartphone app.

HEALTHIER AIR

Because it can operate at two different output levels, the **4SCU16LS** provides exact control over humidity to improve the quality of the air in your home.

PEACE OF MIND

The **4SCU16LS** constantly monitors itself for optimum performance, and contacts you or your dealer if service or maintenance are needed.

Every piece of AirEase® Pro Series equipment means control, precision and efficiency your way.

Temperature. Humidity. Air quality. With the Pro Series, you get them all, just the way you want them, while spending less on energy. Talk to your AirEase dealer to learn more about the **4SCU16LS** and the rest of the Pro Series line. You'll be making a smart choice. **Then get the system that's BUILT FOR LIFE. YOURS.**

AIREASE®

Built for life. Yours.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
